

## Wallet Website

### User Story

**Title:** Charging Wallet

As an Admin, my task is straightforward: to submit a form that charges retailer wallets.

**Acceptance criteria:**

- 1- Form Fields: The form includes fields for Retailer ID, Amount, and Payment Date. There are buttons for submitting the charge and resetting the form.
- 2- Retailer ID Verification: Each Retailer ID must correspond to an existing wallet account and be a positive number.
- 3- Amount Restrictions: The amount must be a positive number between 10 and 5000.
- 4- Payment Date Validation: The payment date must be in the future and follow the "yyyy-mm-dd" format.
- 5- Daily Limit: Only one charge per retailer per day is allowed.
- 6- Charging Action: Clicking the Charge button initiates the wallet charge process.
- 7- Reset Functionality: Clicking the Reset button clears all fields for a fresh start.
